ECO-BLOX WATER MATRIX

Water matrix blocks installed in lined excavations create weight-bearing underground water storage reservoirs. Atlantic's Eco-Blox are the strongest water matrix blocks available, capable of supporting over seven tons of distributed load. With 96% void space, Eco-Blox hold more water in a smaller volume, reducing the overall size of the basin.

Standard Size 17.5" H x 16" W x 27" L 31.5 Gal. Capacity	\$85.00
---	---------

Small Size 9" H x 16" W x 27" L	\$65.00
---	---------

ECO-RISE WATER FEATURE RISERS

- Atlantic's innovative weight distribution ring with plumbing and lighting ports supports fountain pieces directly on Eco-Blox reservoirs

- The Eco-Rise System solves weight and splash limitations of traditional molded fountain basins with a weight capacity of 1,200 or 3,000 pounds per respective Eco-Rise

12" Dia. (2.75" H) 1200 Lb. Max Capacity	\$25.00

What is Hand-Picked?

We offer hand-picking of open pallets for several types of our stone. This enables a customer to hand-sort and select specific pieces of stone from open pallets to suit their needs. Due to the extra labor and waste cleanup this creates for our staff, we must charge extra for this option. Individual stones selected for specific size, color, or shape are considered hand-picked. Projects requiring large amounts of specific stone may be subject to additional charges and/or special-order pricing.

Return Policy

All returns must be in condition for resale.

Returns require purchase receipt dated within the last 60 days
and are subject to a 20% minimum re-stock fee.

House of Rocks reserves the right to refuse returns at our discretion.

Opened bags, mixed loads, items discounted by purchasing full pallets, and thin veneer
are non-refundable items.

Returns needing pickup will be charged a delivery fee.
