### Natural Beauty, Naturally Unique

Every piece of natural stone carries its own character. Color and texture will vary from stone to stone, pallet to pallet, and load to load, just as they do in nature. Our samples and photos provide a strong representation, but exact matches to past panels or pictures can't be guaranteed.

Embracing these variations are part of what make building with natural stone so special—bringing elegant beauty, individuality, and decades of durability to your project.

To make sure you love the final look, here are some tips:

**Request fresh samples:** Ask for pieces from our current stock.

**View them on-site:** See how they look in your specific lighting.

**Order all at once:** Buying your full supply together is the best way to keep the look consistent.

**Order extra:** Ordering extra can help account for naturally occurring variations in color or texture.

### ECO-BLOX WATER MATRIX

Water matrix blocks installed in lined excavations create weight-bearing underground water storage reservoirs. Atlantic's Eco-Blox are the strongest water matrix blocks available, capable of supporting over seven tons of distributed load.  
 With 96% void space, Eco-Blox hold more water in a smaller volume, reducing the overall size of the basin.

<b>Standard Size</b> 17.5" H x 16" W x 27" L 31.5 Gal. Capacity	\$90.00
<b>Small Size</b> 9" H x 16" W x 27" L 15.5 Gal. Capacity	\$70.00

### ECO-RISE WATER FEATURE RISERS

Atlantic's innovative weight distribution ring with plumbing and lighting ports supports fountain pieces directly on Eco-Blox reservoirs.  
 The Eco-Rise System solves weight and splash limitations of traditional molded fountain basins with a weight capacity of 1,200 or 3,000 pounds per respective Eco-Rise.

**What is Hand-Picked?**

We offer the unique opportunity to hand-sort through a limited amount of our inventory to find the exact pieces that fit your vision. To maintain this service and offset the resulting labor and material waste, a Hand-Pick Premium is applied to all stones selected by size, color, or shape.

**Definition:** Any stone pulled for specific dimensions, hues, or shapes is considered hand-picked

**Selection:** Hand-picking is strictly limited to 2 designated open pallets

**Pricing:** Due to increased waste and labor, hand-picked items carry a premium rate

**Bulk Orders:** Large-scale sorting needs or requirements for larger amounts of specific-character stone, are subject to Special-Order pricing and will require a lead time for sourcing and preparation. Please contact our staff for a custom quote and current fulfillment timelines.

**Bulk quantity pricing available on loads of slabs, boulders, veneer,  
& decorative gravels throughout the Midwest**
